

RAMAKRISHNA VIVEKANANDA INTERNATIONAL ENGLISH HIGH SCHOOL, CHAKULIA

AFFILIATED TO CISCE, New-Delhi

Dear parents and guardians,

As we all know that "SCIENCE IS THE POETRY OF REALITY,"

The evidence for affective learning is significant and indicates that Science & Discovery Centres do have powerful emotional impacts upon the students and can have a lasting impact upon their attitudes. Furthermore, it is likely that Science & Discovery Centres play a vital role in sustaining values and patterns of behaviour. Keeping in view the aspiration of an interface with Science and its activities, the Department of Bio-Technology, IIT.Kharagpore has ventured a visit to the National Science Centre, situated at Digha for our school students especially for STD.IX and STD.X starting from Saturday, May, 6, 2017. At 9 A.M. The Bio-Technology camp will be held for 2 and ½ day for each class. Every student of the above-mentioned classes must do HOMEWORK on the topic "WHAT IS BIO-TECHNOLOGY? AND IS BIO-TECHNOLOGY HELPFUL OR HARMFUL FOR THE MANKIND. A serious debate will be held on the topic on which prizes will be given to selected students.

Please acknowledge your concern in this regard underneath.

Principal (RVIEHS.)
